However the GE/PW engine increased its share of the A380 engine market to the point where as of September 2007 it will power 47% of the super-jumbo fleet. This disparity in sales was resolved in a single transaction, with Emirates' order of 55 GP7000-powered A380-800s, comprising over one quarter of A380 sales (as of September 2007). Emirates has traditionally been a Rolls-Royce customer. A380 ...

This photograph show how enormous the A380 wings and engine are as they dwarf the refuelling truck! Rather than refuel via tankers, most major airports have an underground network of fuel pipes supplying fuel to each parking stand. The refuelling truck connects to this underground network and uses a pump used to load the fuel into the aircraft. The refuel control panel is located underneath ...
