Raj can't believe his luck when he gets selected for a summer internship in Switzerland. He had always dreamed of travelling, and this was his chance to explore the world. During this internship, he crosses paths with Sofia, a German student studying in Switzerland. Little did he know that this chance encounter will alter the course of his life forever. Raj finds himself falling in love with Sofia. But as their time together in Switzerland nears an end, Raj finds himself torn between the desire to confess his feelings to Sofia and the fear of losing her. Will Raj be able to tell Sofia how he feels? Will they be able to sustain a love spanning across cultural and geographical boundaries? The Promises We Made recounts the journey of two people falling in love in the most unexpected of circumstances. But destiny had something else in store – a dark twist of events that leaves the reader lamenting the vagaries of fate.

The perfect grounding for students intending to take their studies to a more advanced level.Features: Introductory page to each unit to bring out the relevance of the material to everyday life Simple questions at the end of each unit to consolidate learning Helpful revision summary

Stephen Peple, one of today's most respected science authors, has created a totally new physics book to prepare students for examinations. Complete Physics covers all syllabuses due to a unique combination of Core Pages and Further Topics. Each chapter contains core material valid for all syllabuses. Further Topics at the end can be selected to provide the right mix of pages for the syllabus you are teaching. Key Points: - Totally new book constructed from an analysis of all GCSE Physics syllabuses including IGCSE, CXC, and O'Level - Sets the traditional principles of physics in a modern and global perspective and uses illustrations with a worldwide context - Extra topics to give a truly rounded curriculum - Double-page spread format - Ideal for those students intending to take physics to a more advanced level

This clear and easy to follow text has been revised to meet modern exam requirements: - New material on forces, machines, motion, properties of matter, electronics and energy - Actual GCSE and Standard Grade exam questions - Problem-solving investigations - Practice in experimental design

Make learning lots of fun with this book packed with puzzles to help children develop.

How far should you go to make a profit? Infoquake, the debut novel by David Louis Edelman, takes speculative fiction into alien territory: the corporate boardroom of the far future. It's a stunning trip through the trenches of a technological war fought with product demos, press releases, and sales pitches. Natch is a master of biologics, the programming of the human body. He's clawed and scraped his way to the top of the biologics market using little more than his wits. Now his sudden notoriety has brought him to the attention of Margaret Surina, the owner of a mysterious new technology called MultiReal. Only by enlisting Natch's devious mind can Margaret keep MultiReal out of the hands of High Executive Len Borda and his ruthless armies. To fend off the intricate net of enemies closing in around him, Natch and his apprentices must accomplish the impossible. They must understand this strange new technology, run through the product development cycle, and prepare MultiReal for release to the public—all in three days. Meanwhile, hanging over everything is the specter of the infoquake, a lethal burst of energy that's disrupting the biologic networks and threatening to send the world crashing back into the Dark Ages. With Infoquake, David Louis Edelman has created a fully detailed world that's both as imaginative as Dune and as real as today's Wall Street Journal.

Arturo Hernandez presents the results of 25 years of research into the factors that might help us to understand how two (or more) languages are stored in one brain. It is clear that the brain is not egalitarian—some languages are privileged and others are not, but why?

Perhaps of all the books in the New Testament, James most squarely focuses on results. His pull-no-punches approach to spiritual maturity, his preference for action over words, makes his text the perfect backdrop for a study of how to grow in our faith. Beloved author and teacher, Warren Wiersbe, leads you through this practical book with advice on how to overcome temptation, controlling the tongue, effective prayer, and how to practice what the Bible teaches. If you're going to make progress in these areas, you will need a growing faith and dependence on Christ because as James claims, "Every good and perfect gift is from above." Now with study questions and updated foreword by Ken Baugh, Be Mature makes the perfect guide through your study of James. Trust Warren Wiersbe's 40+ years of experience to instruct you on important truths from God's Word.

By definition, winning means that you competed and you came out ahead. Human nature requires us to compete in order to survive. Therefore, winning and survival have the element of success in common. To ascend to a winning position, you need a goal, a desire to achieve it, and the qualities of discipline, perseverance and action to attain it. Having your goal and setting yourself up to achieve your goal is the first step in the process. You adjust your mindset and begin to plan diligently. Goals may be as different as DNA, but methodologies have much in common. Furthermore, your plans and expectations will need adjustments as you go along. That is why the knowledge shared by the CelebrityExperts(r) in this book will be of importance to you. The advice and suggestions of these CelebrityExperts(r) are based on their experiences - both their accomplishments and their shipwrecks. The knowledge they share will allow you to make plans that can propel you in the right direction. That is the function of a mentor - to guide you where you are going and to advise what to avoid. If you wish to develop The Winning Way to your goals, read on... You will never win if you never begin. Helen Row
