Do you really need a computer anymore? They're clunky and even laptops aren't as portable as they could be, and they don't have touchscreens. Yes, they're great for running power-hungry applica-tions, but what if you just use it for email, web searching, and organizing pictures? iPad's do all that and more. This book is based off of the iPad 10.2 (the one with a Home button—not the Pro models that have abandoned buttons); that doesn't mean it's not use-ful if your iPad doesn't have one, but some features will work slightly differently. Note: This book is based off of the book Your First iPad but includes extra information on accessi-bility. Ready to get started? Let's go!
