has an inward and an outward perspective, with the intellectual emphasis on the latter. The inward-looking inquiry considers shares as items of personal property.

Nowadays those who think of themselves as shareholders often

File Type PDF

Land Law 7 E

Stand one step removed from the share itself. They hold what this book christens a sub-share. This part of the book asks in what sense shares and sub-shares can be conceived to be things, how those things are alienated, and how they are protected

File Type PDF

litigation. The outward-looking inquiry then asks whether personal property can be contemplated as a sub-category of the law of things and, more particularly, as the law of all things locatable in space, alienable, or vindicable in court. The outward

File Type PDF

Land Law 7 E

Core Texts Series  
inquiry considers three boundaries. Within the law of property the line between realty and personalty proves relatively uncontroversial; the second boundary lies between property and obligations; the third between wealth and non-

File Type PDF

Land Law 7 E

wealth. The second boundary is the main concern.

Respect for it necessitates a differentiation between the law of property in the strict sense and the all-encompassing law of wealth, even where the consequence might

File Type PDF

Land Law 7 E

be to exclude  
shares and sub-  
shares from the  
law of property. In  
maintaining the  
value of careful  
proprietary  
taxonomy and in  
reviving the  
underlying  
concepts on which  
it depends, this  
book opposes  
modern scepticism

File Type PDF

as to the possibility  
and desirability of  
precision in legal  
classification. In  
these

commitments it  
could fairly be  
styled a post-

personal property.
