Student Guide for Living Chemistry is a 23-chapter textbook guide that allows students to study and review on their own and test their understanding to help them prepare for examinations. Every chapter begins with a list of objectives, stating exactly the skills to develop in a particular unit. Each objective corresponds to a section in the textbook Living Chemistry. Three kinds of questions are provided for each objective to check the student's understanding, namely, short answer (Study Questions), multiple-choice, and fill-in. The answers for all questions are provided at the end of the
