responsibility that lead to management, but there are also opportunities for self-employment, as a financial adviser for example.

## **Mathematics and Statistics skills and careers: Career ...**

Here are 10 potential careers in mathematics. 1. Data Analyst. As already touched upon, data is, as the saying goes, the new oil. Therefore, analysts who can make sense of raw numbers and transform them into something actionable are as valuable to companies as the data itself. The added bonus is that companies in every industry are recruiting data analysts, so if you have a particular interest in a certain sector, you won't be short of options.
