This text and reference has been updated and expanded to reflect current trends in sport management and recreational sport.

Human Resource Management in Sport and Recreation, Third Edition, provides current and future practitioners with a solid foundation in research and application of human resource management in the sport and recreation industries. The third edition prepares students for success by bringing into focus the three divergent groups of people who constitute human resources in sport and recreation organizations: paid professional workers, volunteers, and the clients themselves. Dr. Packianathan Chelladurai, pioneer in the field of sport management, continues to bring his expertise to this edition; he is joined by new coauthor Dr. Shannon Kerwin, an active researcher in organizational behavior and human resource management in sport. With more than 50 collective years of experience in teaching management of human resources, Chelladurai and Kerwin synthesize the core dynamics of human resources and the management of these resources as well as the role of the sport and recreation manager. The third edition's updated references, examples, and studies reflect the increased growth, interest, and complexity in human resource management in recreation and sport in recent years. Additional enhancements of the third edition include the following: □ A new opening chapter on the significance of human resources describes consumer services, professional services, and human services and provides a model for the subsequent chapters. □ A greater emphasis is placed on recruitment and training as an essential component of success. □ New "Technology in Human Resource Management" and "Diversity Management of Human Resources" sidebars connect theory to practice for sport managers as they confront contemporary issues in the workplace. □ Case studies at the end of each chapter help students apply concepts from the chapter to real-world scenarios. □ Instructor ancillaries help instructors prepare for class with the use of an instructor guide with a syllabus, tips for teaching, and additional resources, as well as an image bank. In addition, updated pedagogical aids include learning objectives, summaries, lists of key terms, comprehension questions, and discussion questions to guide student learning through each chapter. Sidebars throughout the text provide applied concepts, highlight relevant research, and offer digestible takeaways. Organized into four parts, the text begins by outlining the unique and common characteristics of the three groups of human resources in sport and recreation. Part II focuses on differences in people and how the differences affect behavior in sport and recreation organizations. In part III, readers explore significant organizational processes in the management of human resources. Part IV discusses two significant outcomes expected of human resource practices: satisfaction and commitment. Finally, a conclusion synthesizes information and presents a set of founding and guiding themes. Human Resource Management in Sport and Recreation, Third Edition, explains essential concepts in human resources in the sport and recreation industries.

Now in a fully revised and updated third edition, Event Management in Sport, Recreation and Tourism provides a comprehensive theoretical and practical framework for planning and managing events. Focusing on the role of event managers and their diverse responsibilities through each phase of the event planning process, this is still the only textbook to define the concept of knowledge in the context of event management, placing it at the centre of professional practice. Designed to encourage critical thinking on the part of the student, this book helps them develop the skills that they will need to become effective and reflective practitioners in the events industry. Containing a rich array of international real-world case studies, data and practical examples from sport, recreation and tourism contexts, this third edition is also enhanced by two completely new chapters on contemporary management issues and ethics in event management. Event Management in Sport, Recreation and Tourism is essential reading for any student or practitioner working in event management, sport management, leisure management, outdoor recreation or tourism.

For nearly thirty years George Torkildsen's classic textbook has been the most comprehensive and engaging introduction to sport and leisure management available to students at all levels. Now in a fully revised sixth edition, it is still the only textbook that covers all the key topics taught within contemporary sport and leisure management courses. This new edition includes expanded coverage of the practical managerial skills that students must develop if aiming for a career in the sport and leisure industry, from planning and managing people to marketing and entrepreneurship. It includes five completely new chapters on leisure in the home, financial management, quality management and law and enterprise, reflecting important developments in contemporary sport and leisure. This edition retains the hallmark strengths of previous editions, including in-depth discussion of the social and cultural context of sport and leisure, full analysis of the public, private and voluntary sectors, and a review of key products and services, including sport, tourism, the arts, play and leisure in the natural environment. Richly illustrated throughout with up-to-date evidence, data, case-studies and international examples, each chapter also contains a range of useful pedagogical features, such as discussion questions, practical tasks and structured guides to further reading and resources.
